

PRO10™

UPGRADE

DESIGN FEATURES & BENEFITS

- + 0.7mm thickness - reduced bending and increased durability
- + Bright annealed finish - allows for better evaluation of CIP response
- + Improved inlet design - ideal for viscous products
- + Enlarged hanger - allows plates to slide smoothly during installation or inspection
- + Snap-in gasket - provides secure gasket attachment

AGC ADVANTAGES

- + Pro10™ has existing AGC ProFlow design features & improved thermal performance
- + For new AGC frames and upgrade for Clip10, Front10 and C10 frames without piping changes
- + Plates packed in order per streaming diagram
- + In stock and ready to ship - minimal lead time
- + Onsite installation service available
