

Job Description

Position Title: CNC Machinist
Reports To: Machine Shop Supervisor
Position Location: Fairview, OR

Can you make the AGC Difference? AGC Heat Transfer, Inc. is looking for a dynamic manufacturing leader who understands the importance of building client relationships while supporting and developing its most important resource – its people!

Brief Company Description

AGC Heat Transfer, Inc., a wholly owned subsidiary of Alfa Laval, AB, is the leading OEM of sanitary plate heat exchangers in North America, manufacturing plate heat exchangers specifically designed for sanitary applications. AGC offers complete heat exchangers, services as well as upgrades to plate packs, gaskets and spares that fit multiple brands. In addition, AGC offers Field Leak Testing and inspections of plate heat exchangers that meet the 3-A sanitary standard.

AGC Heat Transfer consists of three manufacturing/service facilities (Bristow, VA, Fairview, OR & Pleasant Prairie, WI) with about 110 employees (70 OR / 20 VA / 20 other locations). Currently, most of the sales are in the US & Canada. The business is profitable and has more than doubled sales since Alfa Laval acquired it in 2007. AGC Heat Transfer has a strong engineering culture with a heavy emphasis on customer service and technical/consultative sales.

Job Description

We are looking for a skilled CNC Operator with 5 years' experience on Haas controls to produce precision parts used in our Heat Exchanger production plant. Excellent manual dexterity, eye for detail, knowledge of mathematics and mechanics and a respect for safety precautions and procedures are key attributes of this position to ensure effective production operations and optimize procedures.

Position Responsibilities

- Actively participate in continuous safety and production improvement efforts within the plant.
- Ability to work with both the immediate Machine Shop team and the organization as a whole to accomplish assigned tasks.
- Set up and operate Hass CNC Mills and CNC Lathes
- Select correct tooling to complete machining operations based on Drawing instructions.
- Move material to next station or to stock.
- Operate a forklift.
- Perform general housekeeping/clean up in assigned area.
- Other duties as assigned.
